A total of 25 trucks and 5 x 76-mm AT guns were seen in a garage and about 150 trucks outside the garages.

Corment. Another source reported that the Luftnachrichten Kaserne disthing denot No I were only partly occupied on 21 February. . This resulted from exercises which units of

the Fourth Gds Necz Army held in the area northeast of Rathenow From 17 to 20 February. Several reports indicated that the units of the unidentified army artillery brigade of the army returned to clothing depot No I on 22 February.  Let is therefore believed that the units of the 6th Gds Necz Div which had also participated in these exercises had returned and that the afore mentioned installations were occupied to capacity on and after 23 and 24 Februar The statement on the lighting of the installation as contained in paragraph 5 is received with reserve. It is believed that, on 21 February, detraining operations rather than entraining operations of the afore mentioned units took place in Bernau. It is believed that sumply officer Zagrebniev (fnu) is Lieutenant Colonel Zakrevnov (fnu) supply officer of the afore mentioned brigade, who was reported by the same source. Lieutenant Colonel Zubov (fnu) is also known.
